Recent Experience

Front-end Developer @ KTBYTE

January 2018 – April 2019 // Lexington, MA, USA (Remote)

- > Worked closely with the in-house designer to maintain, improve and code new features for both the company's website and their product
- > Sketched the UI and created with React and Less a new setup widget for students to prepare for classes, checking if the application had permission to access microphones and webcams
- > Temporarily acted as the Project Manager of the redesign of a checkout application, where I was responsible for task distribution to interns and the Back-end team

Front-end Developer @ Cuponomia

February 2018 – October 2018 // São Paulo, SP, Brazil (Remote)

- > Worked with a team of a designer and a Mid-Level Front-end developer to maintain and improve the company's digital coupon provider application
- > Maintained and improved the UI and UX of the in-house website using Vanilla Javascript, jQuery and Less, based on a custom style guide created by the company

Front-end Developer @ Trílogo

September 2016 – January 2018 // Fortaleza, CE, Brazil

- > Applied User Experience methodologies to improve the in-house product, which included interviewing the users and creating personas, to ensure a better experience with both the web and the mobile versions of the company's product
- > Redesigned and developed the main product using MaterializeCSS, HTML, Javascript, jQuery and C#
- > Proposed and implemented a new version of the product's mobile app using Ionic, Sass and Angular
- > Developed mockups and prototypes of minor products using Angular Material
- > Collaborated closely with the Product Managers, the CTO and the Back-end team on a daily basis
